Nancy:

Thank you for letting me know. I just got this updated version from Mike Bellot. From my conversations with the OECA Lead Region Coordinators, they were shooting for Monday Jan. 11th, but that depends on speaker availability and I'm working with my OCSPP counterparts to identify a speaker. Would Region 1's ECAD or LCRD speak in addition to OECA and OCSPP? Please advise.

Sincerely,
Beth

Beth-the paper sent out is outdated, contains some privileged info and can't be released outside of EPA. OECA has asked Karen McGuire, our ECAD Director, to update a brief for the regional call next week. Mike Harris, the R5 ECAD Director has been involved in discussions. Do you know what day you are trying to schedule call?

Importance: High

Hi All:

I'm still putting together pieces regarding this call and the timing/content next week, but since the issue was discovered in Region 1 and there is some mention in the 1-pager about potential Region 5 FIFRA inspection I'm hoping you all (or a designee) will be able to attend the call.

Thanks,
Beth

Subject: Quick Feedback: re: joint call with ECAD/LCRD on Clark/Anvil/PFAS issue

Importance: High

Greetings:

OECA has reached out to me and the LRC's for ECAD because there are planning to issue a Ex. 5 Deliberative Process (DP) to Clarke company who provides Anvil, the adulticide used for mosquito control, and a Ex. 5 Deliberative Process (DP) next Wednesday. This product is registered in over 20 States.

They would like to have a joint call, led by OECA and OCSPP, for LCARDs, ECADs and ORCs with all 10 Regions next week in the morning and the States in the afternoon to streamline the communication.

Please let me know ASAP have any concerns with that proposal. I'm working with OCSPP and the Lead Region Coordinators for OECA to coordinate this.

Sincerely,
Beth

Hi All:

This all sounds great! Let me circle back with OCSPP folks and we'll get this coordinated.

Thanks,
Beth

Joe

Thanks – that sounds like a great plan!

Also, we talked with Susan earlier today and she asked whether we could possibly talk with the Regions in the morning and States in the afternoon of the same day to try to streamline the communication. Although, I am not exactly sure how the coordination with our State co-regulators works in this type of situation. I heard this is something that is done more routinely on the Program side, so perhaps Beth has some insight here?

Ex. 5 Deliberative Process (DP)

I am fine with you pulling together the email from the materials, setting up the meeting and framing the ask. We are sprinting around here in a lot of directions right now.

As always, many thanks!

Hi Mike, the feedback from a couple of Regional ECAD Directors is a joint call, led by OECA and OCSPP, for LCARDs, ECADs and ORCs would be a great idea. It sounds like some of the ECAD Directors are working in lock-step with their LCARD Directors. Does a joint call sound good to you?

If so, then next steps would seem to be:

- Joe/Abby work with Beth to get a date/time selected soonest.
- Distribute an email to all the parties with your talking points to tee-up the meeting
 - Mike draft the email? Or would you prefer we take a stab based on the below and send to you for review?
 - Beth and Abby/Joe distribute to our communities
 - Beth or Abby or Joe send the actual meeting invitation (from one source)

Let us know on the larger, joint-meeting question and any of the next steps when you can. Thanks,
Joe

Abby/Joe

I hope you are well and thriving.

Ex. 5 Deliberative Process (DP)

OECA is planning to issue a **Ex. 5 Deliberative Process (DP)** next week. This means we need to coordinate with all 10 Regions and their member States on an appropriate response and a coordinated communication strategy. We understand that one product is registered in over 20 States, but there may be more.

I understand that OCSPP will be reaching out to Beth Garcia (who I am copying) to set up a meeting for the program side and we thought it might make sense to have one call with ECADs as well. I am attaching a dated briefing sheet for some background while we update with a more current version.

Let me know your thoughts/recommendations for the best way to coordinate on this.

Oh, happy New Year...
